

PLA

CLEAR CUP SERIES

Suitable for cold beverage and foods

 **VIGOUR GROUP**

Full Line Disposable Paper & Plastic Packaging MFG.

Corn Plastic : **PLA** Polylactic acid 100% Renewable

PLA is a biodegradable thermoplastic aliphatic polyester derived from renewable resources, such as corn starch.

VIGOUR **PLA** Clear Cup Series Made from Natural & Plants

Our **PLA** clear cup products are made from 100% NatureWorks® resin produced in the USA. Nature-based Ingeo® material made from corn stalks, an annually renewable resource, not oil. 100% Compostable in a commercial composting facility.

At the end of life, Ingeo® PLA based products can be recycled or composted under commercial composting conditions 90% within 60 days and the balance within 90 days.
