VIGOUR GROUP

www.vigourpack.com

Founded in 2002, VIGOUR GROUP is one of the leading disposable paper and plastic packaging manufacturers in Taiwan.

We focus on providing high quality, competitively priced paper and plastic foodservice disposables to the following market segments: C-stores, QSR, supermarkets, food processors, entertainment, airlines.

GLOBAL SERVICE

We cooperate with key customers in USA, Australia, Europe, Middle East, Asia, Latin America, and over twenty other countries, which has given us an important global footprint.

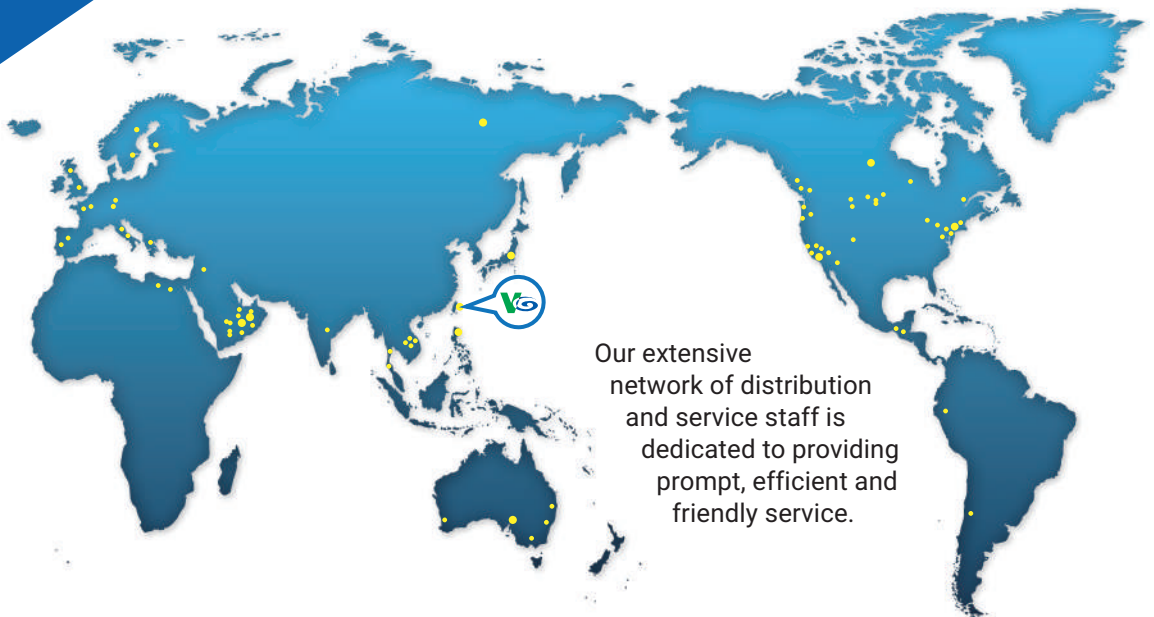

VIGOUR PACK and VIGOUR PLASTIC are both under the umbrella of it's parent holding company of VIGOUR GROUP.

Readily available materials include PET, PS, PP, RPET, PLA, PBS, and paper boards, all of which are 100% FDA certified for food contact.

We provide convenient and efficient air, land and shipping routes. We are committed to give the best service and sales experience, no matter where you are located.

Our extensive network of distribution and service staff is dedicated to providing prompt, efficient and friendly service.

CERTIFICATION & CAPABILITIES

BRC & FSSC22000 Certifications make us Global Food Safety Initiative (GFSI) certified.

PLANT FACILITY

6 sets double wall paper cup forming machines.

36 German-made fully integrated and automated paper cup/container forming and packing lines.

Finished cups are auto-packed directly into sleeves to prevent any external contact. Film lamination to paper board capacity is over 5,000 tons per month.

2 PROGRESSIVE IN-LINE PLANTS, the true "production island" comprising all operational components that transform the raw material granules into the finished product.

14 EXTRUDERS, the monthly capacity of Eco-friendly material (RPET and PLA) products is over 400 tons each.

26 HIGH SPEED THERMOFORMERS which produce plastic cups (PET, PLA clear cups) and containers (PET, RPET, PLA, PP). Total capacity up to 200 million pcs per month.

PRINTING APPLICATION

5 German Heidelberg offset printing machines that print up to 6-colors and 8-color FLEXO machine for paper cups and containers.

4 6-color Van Dam UV offset printing machines for plastic cups and containers.

BUT-N-LOC[®]

 PATENTED BUTTON LOCK DESIGN

TAMPER EVIDENT CONTAINER SERIES

- ✔ Original innovators of the button lock design
- ✔ Only tamper evident design that works with 1 piece hinged or 2 piece containers
- ✔ No sharp edges, no wasteful tear strips
- ✔ Available in RPET, Blended PET or PET
- ✔ High clarity and tight lid fit prevents leakage

HINGED LID TYPE

CLOSE THE LID

PUSH TO "LOC" BUTTON

CLOSE & OPEN

PULL THE TAB, BUTTON REMAINS

OPEN THE LID

 PATENTED BUTTON LOCK DESIGN

BUT-N-LOC®

The innovative tamper-resistant locking mechanism and seal ensures quality and eliminates the need for shrink bands and wrap labels.

LOCKED

OPENED

NO LEAK LID

The button "Loc" tab fastens to the top of the base. If tampered with prior to purchase the **BUT-N-LOC®** button will not be connected to the tab and a clean hole in the tab will be evident. The engineered tight parameter seal promises a leak resistant experience.

VG automatic closing machine is designed specifically for our patented **BUT-N-LOC** tamper evident hinged lid containers, operates with sizes 8oz to 64oz, and processes up to 80 containers per minute. Sturdy aluminum and steel construction with electronic control system for flexible ease of use operation.

Our machine increases productivity through reduced labour costs, improved reliability and output. Ideal secure packaging system for a wide variety of fresh food products, VG automatic closing machines are as efficient as they are effective.

BUT-N-LOC

**TAMPER EVIDENT
SQUARE BOWLS**

These patented clear square bowls are perfect for leaf or pasta salads, cut vegetables, cut fruit, nuts, candies and other specialty foods. Ideal for delis, supermarkets, wholesale clubs, and C-stores. Crystal clear lids give the consumer a clear view before buying and they are also crack-resistant and spill-proof to ensure safe and stable handling. Black base available in custom option.

Available in three ranges - 5" (small), 7.5" (Medium), and 9" (Large) in a variety of sizes and single, or 4 compartment options. The stack-ability of these square bowl may improve your shelf space utilization.

SUSTAINABLE PRODUCTS

RPET HINGED DELI CONTAINERS
PLA BIOPLASTIC CLEAR CUPS

* Please refer to
TAMPER EVIDENT PRODUCTS P.3

THE ECO-FRIENDLY OPTION FOR FOOD & BEVERAGE

We are helping the environment to offer products that are made from recycled content and plant-based material. We offer recyclable and biodegradable products by using post-consumer recycled PET (RPET) resin, and bio-plastic such as PLA (Poly-Lactic Acid) which is derived from corn starch.

BENEFITS OF RPET

- Reducing greenhouse gas (GHG) emissions by more than 79% of Virgin PET.
- Less energy and under a quarter of the carbon footprint of Virgin PET.
- Saves raw materials, reduces waste and creates a better environment.

RPET made from empty PET packaging that has been recycled and reprocessed. It's a food-safe raw material (EMA and FDA approved). RPET applications is on the rise as the demand for recycled content grows from consumers. We provide sustainability-committed customers with a transition from PET to rPET. We support our customers with their sustainability strategy.

The sustainable products have the advantages of a traditional plastic package but with a reduced environmental impact. It's not just great for our customers, it's great for the planet.

RPET CLEAR HINGED DELI CONTAINERS

These containers can be made from post-consumer recycled PET (rPET) according to customer needs, provide environmental benefits and meet customer demand for more sustainable food packaging. Our products has been assessed and found conforming to the requirements of U.S.F.D.A. and offer enhanced clarity for superior product visibility, one-piece hinged construction and spill-resistant closures.

Available in 15 most popular sizes from 4 to 64 oz., suitable for main and side dishes and bulk foods, they are the perfect choice for all your deli packaging needs - cold pasta, fruit or potato salad, leafy green salads, sandwiches, dried fruit and nuts, bulk candy, desserts and more. Ideal for supermarkets, delis, wholesale clubs, c-stores.

**PLA BIOPLASTIC
CLEAR CUPS & LIDS**

PLA COMPOSTABLE BIOPLASTICS MADE FROM PLANT STARCHES

WHAT IS PLA?

PLA (PolyLactic Acid) is made from plants not oil, derived from natural sources like corn starch, cassava, or sugar cane.

HOW PLA IS MADE?

- 01 Harvesting the corn, extract the starch in the form of glucose.
- 02 Fermentation process turning glucose into lactic acid.
- 03 Turning lactic acid into a polymer, which can be made into PLA resin.

NatureWorks is the world's largest producer of PLA, and a key partner to VIGOUR PACK. VG PLA clear cups made from 100% NatureWorks Ingeo™ resin produced in the USA.

100% BIODEGRADABLE

PLA products will completely biodegrade within 120 days in a commercial compost facility. Return nutrients back into soil.

LOW CARBON FOOTPRINT

The production of Ingeo® bioplastic emits 75% less greenhouse gas emissions compared to PET.

STORE IN THE COOL PLACE. IDEAL BEVERAGE TEMPERATURE WITHIN 40°C / 104°F

PET CLEAR CUPS & LIDS
4 DIAMETER RIM SIZES

The glass-like clarity of clear cups allows the appeal of your food and drink to shine through. Whether for iced beverages, smoothies, frozen drinks, on-the-go snacks or parfaits, they give your product that high-end look and feel. Made of crack-resistant PET, these cups have outstanding strength and durability.

They are not susceptible to flavor or odor transfer and have smooth rolled rims for safe and comfortable drinking. You can also create new food combinations with our cup inserts.

FEATURES & BENEFITS

- Four rim diameter sizes: 78, 92, 98, and 107mm. 4oz cup inserts to fits 92mm & 98mm rim cups.
- Large and flat area for customer branding. Printing up to 6-colors.
- Excellent for coffee shops, restaurants, supermarkets, C-stores and sports venues.

MADE WITH PREMIUM ALUMINUM

- Impressive presentation.
- Oven-safe and Freezer-safe.
- Can be recycled after use.
- Convenient for storing food for delivery or take-out as well.
- Hold large amounts of food without bending out of shape.
- Perfect for evenly distributing heat while cooking.

**BLACK & GOLD SMOOTHWALL
FOIL CONTAINERS**

These aluminum foil containers are ideal for all-in-one use and are oven-safe to conveniently bake and serve meals in the same tray. With contrasting black exterior and a luxurious gold interior color, these disposable foil trays will add a high-end look to your to-go service!

With well-made durable wall and smooth rolled rims, it provides a secure grip to prevent messy spills while in the oven or serving guests. Ideal for household, catering and professional food service providers, takeouts, deli's, schools, camps, and more.

Black & Gold Tray with Lid Combo Pack

To safely transport meals to catered events, pair these trays with our matching PET lids.

DOUBLE-WALL PAPER CUPS

VG double-wall paper cup provides excellent heat insulation effects. The built-in thermal layer protects hands from heat and keeps drinks at appropriate temperature, and the outside of the cup comfortable to hold. The form-fitted sealing lid keeps beverages hotter longer and security.

Comfortable

Distinguishingly smooth outer wrap makes for a perfect surface to print clear and unambiguous artwork.

Built-in thermal layer makes the outer surface smoothly & comfortable handhold feel and tactile impression for customers.

Sturdy & Durable

Our secure and form-fitting lid creates a superior sealed barrier which helps prevent leaks.

The inner air space helps conserve heat within the contents of the cup, as well as maintaining a cool to the touch outer wall.

Special wider bottom design provides better stability for placement.

MAXIMUM OUTSIDE SURFACE TEMPERATURE IN THE FIRST 3 MINUTES

THE BEST CHOICE FOR THE SUSTAINABLE GROWTH OF THE PREMIUM BEVERAGE SEGMENT

HEAVY WEIGHT PAPER FOOD CONTAINERS

VG heavy weight paper food containers are perfect fit for both hot and cold applications.

Made with high quality paperboard and double-sided poly coated for extra strength, make these containers more rigid, durable, and versatile, freezer safe and microwavable.

Ideal for hot take-out items such as soup or for storing ice cream in the freezer. Great for delis, salad bars, ice cream and frozen yogurt shops, fairs and more.

IDEAL FOR BOTH
HOT & COLD FOODS
 - OATMEAL, SOUP,
 ICE CREAM, & YOGURT.

Available in 8, 12, 16 Tall
 to 32 oz and come with
 a tight-fit vented PP flat lid.
 8, 12 & 16 Tall share one lid
 to reduce storage space
 and inventory cost.

Offered in white and
 up to 6-color print.

CUSTOM PRINTING

GET YOUR MESSAGE DIRECTLY INTO THE HANDS OF YOUR CUSTOMERS.

EASILY & EFFECTIVELY
PROMOTE YOUR BUSINESS

Custom printing is the perfect solution to build your brand image and grow market awareness. It allows you to cost effectively advertise your company's brand - products, style and values - and provides a point of distinction for your brand in an otherwise saturated market. It is a portable billboard for your business right in your customers hands. It's an advantage that what we like to call "Brand In Hand".

Customize all your foodservice disposables – paper hot and cold cups, paper food containers, plastic drink cups, plastic round containers and cup sleeves.

WE UNDERSTAND PRINTING

PRINTING APPLICATION

We have world-class printing equipment. For plastic cups and containers, we have four 6-color Van Dam UV offset printing machines. For paper cups and containers, we have 8-color FLEXO machine and four German printing machines that print up to 5-colors.

PRINTING SERVICE

We manage all design and print services in-house. We can recreate or modify your existing artwork or our designers can help you develop an entirely new brand concept. We can even create mock-ups so that you can see what the actual product will look like once artwork is finalized.

5 STEPS

SIMPLE & EASY!

WE'RE HERE TO HELP

WHATEVER YOUR PRINTING NEEDS

01

Choose the cup or container size(s) you need. We offer a wide range of sizes on paper cold cups, paper hot cups – single or double wall, paper food containers, PET drink cups, PET & PP round deli containers and PLA drink cups.

02

Choose up to 6-colors for your plastic cups / containers, 5-colors for your paper cups and containers and up to 4-colors for your customized PLA drink cups and cup sleeves.

03

Send us your artwork as an AI (Adobe Illustrator), EPS (Encapsulated PostScript) or PDF file. If electronic artwork is not available, send a sample of your cup or container and we will recreate the artwork by hand.

04

Once you have perfected your design, we will produce a digital file of the artwork for you to review and approve. We can also create a mock-up, if needed, for a minimal charge.

05

The printing process begins once the digital artwork file and/or mock-up has been approved and purchase order has been received. Custom printed products will be produced and delivered within our stated normal lead times.

Our minimum order quantity for most custom prints is 50,000 pieces per sku.

ARTWORK REQUIREMENTS

FILE FORMAT ▶ .AI

- Shapes and fonts must be outlined.
- Font size must be at least 8 pt bold.
- Artwork elements must be in layers, not merged.
- All images embedded and must be at least 300 dpi or higher.
- Define all colors CMYK or PANTONE® Solid Coated / Uncoated Color Code.
- PANTONE® Solid Coated Colors can be used, but not all colors can be achieved.

Available for all stock sizes.
Please feel free to contact us
for a template to get started.

If your artwork is designed by Photoshop or Corel Draw, please save it as a high resolution PDF, AI, or EPS file.

UNDERSTANDING PRINTING METHODS

4-COLOR PROCESS PRINTING

CYAN MAGENTA YELLOW BLACK

Process printing refers to a process that uses 4 colors - Cyan (C), Magenta (M), Yellow (Y) and Black (B) to reproduce a wide range of colors by mixing the colors together as they are printed. This is known as CMYK process printing or 4-color process printing. A wide range of colors can be created with just 4 color printing plates so the number of reproducible colors is much higher than four. PANTONE® color codes can be provided as a final color reference, but not all PANTONE® colors can be reproduced.

SPOT COLOR PRINTING

Spot color printing uses a color system of solid, pre-mixed colors, also known as PANTONE® colors. Spot colors are more accurate as you have already determined the color by its specific PANTONE® number. It is generally more economical if printing is kept to 3-colors or less.

Due to the use of food-grade inks, not all PANTONE® colors can be achieved. Also, spot colors are nearly impossible to replicate exactly on digital print devices such as color laser printers. Please note that the same color may appear differently on different raw materials.

PRINTING INFORMATION & DISCLAIMERS

COLOR ACCURACY

When a PANTONE® color code is provided, finished products are expected to be within 2 PANTONE® colors, either up or down (refer to PANTONE® Solid color book). Due to food grade inks, not all PANTONE® color codes can be achieved, and any possible replacement is only at the manufacturer's discretion.

INK ODOR

As a result of printing with food grade inks, a degree of ink odor should be expected in all custom printed products. Any possible replacement is only at the manufacturer's discretion.

PRINT GAP

A ¼" gap is left between the leading edge of the design PET/PLA cups so that the design does not overlap.

MINIMUM & LEAD TIMES

- All stated minimums apply for each size and/or design ordered. Minimums are subject to change at any time. Due to the nature of custom printed products, there may be a +/- 10% over/under run (variance between amount ordered and amount produced).
- Lead times are estimated and are not guaranteed.

PLATE CHARGES

Plate charges will not be charged for reprint orders provided the existing plates are in good condition. If left unused, printing plates have a maximum life of 18 months. Customer will be notified if new plates will be necessary for their re-print orders and subsequently billed for the new plates.
