DISPOSABLE PACKAGING SOLUTIONS
FOR EVERY OCCASION

PRODUCT CATALOGUE

VIGOUR GROUP

www.vigourpack.com

Founded in 2002, VIGOUR GROUP is one of the leading disposable paper and plastic packaging manufacturers in Taiwan.

We focus on providing high quality, competitively priced paper and plastic foodservice disposables to the following market segments: C-stores, QSR, supermarkets, food processors, entertainment, airlines.

GLOBAL SERVICE

We cooperate with key customers in USA, Australia, Europe, Middle East, Asia, Latin America, and over twenty other countries, which has given us an important global footprint.

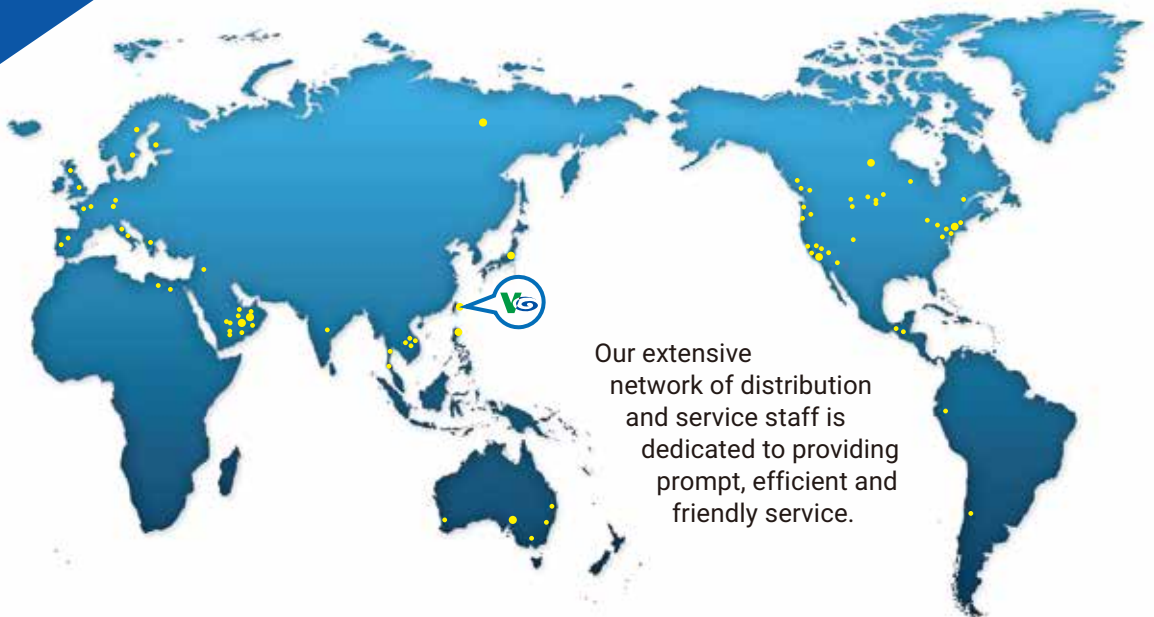

VIGOUR PACK and VIGOUR PLASTIC are both under the umbrella of it's parent holding company of VIGOUR GROUP.

Readily available materials include PET, PP, RPET, PLA, PBS, and paper boards, all of which are 100% FDA certified for food contact.

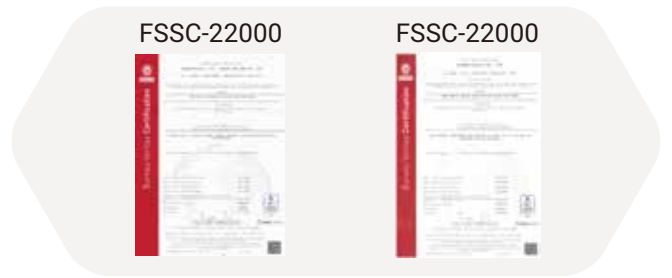

We provide convenient and efficient air, land and shipping routes. We are committed to give the best service and sales experience, no matter where you are located.

Our extensive network of distribution and service staff is dedicated to providing prompt, efficient and friendly service.

CERTIFICATION & CAPABILITIES

FSSC22000 Certifications make us Global Food Safety Initiative (GFSI) certified.

PLANT FACILITY

6 sets double wall paper cup forming machines.

36 German-made fully integrated and automated paper cup/container forming and packing lines.

Finished cups are auto-packed directly into sleeves to prevent any external contact. Film lamination to paper board capacity is over 5,000 tons per month.

9 EXTRUDERS, the monthly capacity of Eco-friendly material (RPET and PLA) products is over 400 tons each.

26 HIGH SPEED THERMOFORMERS which produce plastic cups (PET, PLA clear cups) and containers (PET, RPET, PLA, PP). Total capacity up to 200 million pcs per month.

PRINTING APPLICATION

5 German Heidelberg offset printing machines that print up to 6-colors and 8-color FLEXO machine for paper cups and containers.

4 6-color Van Dam UV offset printing machines for plastic cups and containers.

VG automatic closing machine is designed specifically for our patented **BUT-N-LOC** tamper evident hinged lid containers, operates with sizes 8oz to 64oz, and processes up to 80 containers per minute. Sturdy aluminum and steel construction with electronic control system for flexible ease of use operation.

Our machine increases productivity through reduced labour costs, improved reliability and output. Ideal secure packaging system for a wide variety of fresh food products, VG automatic closing machines are as efficient as they are effective.

PET HINGED TYPE DELI CONTAINER

These containers can be made from post-consumer recycled PET (rPET) according to customer needs, provide environmental benefits and meet customer demand for more sustainable food packaging. Our products has been assessed and found conforming to the requirements of U.S.F.D.A. and offer enhanced clarity for superior product visibility, one-piece hinged construction and spill-resistant closures.

Available in 15 most popular sizes from 4 to 64 oz., suitable for main and side dishes and bulk foods, they are the perfect choice for all your deli packaging needs - cold pasta, fruit or potato salad, leafy green salads, sandwiches, dried fruit and nuts, bulk candy, desserts and more. Ideal for supermarkets, delis, wholesale clubs, c-stores.

It's just the right size for single serving salads, fruits, cut veggies, pastas and side items. It's designed for transporting and storing cold food items. Tight lid fit prevents spills – in the store and on the go – and helps maintain product freshness.

You'll have no trouble selling produce, jujube, berries, and even herbs! Ideas for supermarkets, delis, wholesale clubs, and C-stores.

PET CLEAR SALAD BOWLS

These fresh view bowls are specifically designed to showcase your bakery, deli, produce and “grab-and-go” items. Made of durable, crack-resistant and clear PET, these bowls are the perfect complement for pre-packed or fresh salads and cut fruit. The no-spill lid is also perfect for stacking. Available in bulk or combo pack, and with clear or black bases.

PET CLEAR CUPS & LIDS

4 DIAMETER RIM SIZES

The glass-like clarity of clear cups allows the appeal of your food and drink to shine through. Whether for iced beverages, smoothies, frozen drinks, on-the-go snacks or parfaits, they give your product that high-end look and feel. Made of crack-resistant PET, these cups have outstanding strength and durability.

They are not susceptible to flavor or odor transfer and have smooth rolled rims for safe and comfortable drinking. You can also create new food combinations with our cup inserts.

FEATURES & BENEFITS

- Four rim diameter sizes: 78, 92, 98, and 107mm. 4oz cup inserts to fits 92mm & 98mm rim cups.
- Large and flat area for customer branding. Printing up to 6-colors.
- Excellent for coffee shops, restaurants, supermarkets, C-stores and sports venues.

PLA BIOPLASTIC CLEAR CUPS & SALAD BOWL

PLA COMPOSTABLE BIOPLASTICS MADE FROM PLANT STARCHES

WHAT IS PLA?

PLA (PolyLactic Acid) is made from plants not oil, derived from natural sources like corn starch, cassava, or sugar cane.

HOW PLA IS MADE?

- 01 Harvesting the corn, extract the starch in the form of glucose.
- 02 Fermentation process turning glucose into lactic acid.
- 03 Turning lactic acid into a polymer, which can be made into PLA resin.

NatureWorks is the world's largest producer of PLA, our PLA clear cups made from 100% NatureWorks Ingeo™ resin produced in the USA.

100% BIODEGRADABLE

PLA products will completely biodegrade within 120 days in a commercial compost facility. Return nutrients back into soil.

LOW CARBON FOOTPRINT

The production of Ingeo® bioplastic emits 75% less greenhouse gas emissions compared to PET.

STORE IN THE COOL PLACE.

HEAVY DUTY MICROWAVE PP CONTAINERS

HEAT + COLD RESISTANCE

- 1** The dome style raised lids that increase the usable space.
- 2** Secure fit to eliminate spills. Audible click closure indicates a secure lock.
- 3** Allow steam to escape which is especially important to prevent food from getting soggy or mushy.
- 4** Recyclable black PP base with clear see-thru lid.

Heat tolerance up to 230° F / 110° C in the microwave oven or display case.

DOUBLE-WALL PAPER CUPS

VG double-wall paper cup provides excellent heat insulation effects. The built-in thermal layer protects hands from heat and keeps drinks at appropriate temperature, and the outside of the cup comfortable to hold. The form-fitted sealing lid keeps beverages hotter longer and security.

Comfortable

Distinguishingly smooth outer wrap makes for a perfect surface to print clear and unambiguous artwork.

Built-in thermal layer makes the outer surface smoothly & comfortable handhold feel and tactile impression for customers.

Sturdy & Durable

Our secure and form-fitting lid creates a superior sealed barrier which helps prevent leaks.

The inner air space helps conserve heat within the contents of the cup, as well as maintaining a cool to the touch outer wall.

Special wider bottom design provides better stability for placement.

MAXIMUM OUTSIDE SURFACE TEMPERATURE IN THE FIRST 3 MINUTES

Hot water initial temperature 91°C / 196°F
ROOM TEMPERATURE : 25.4°C / 77.7°F

PAPER COLD CUPS

Whatever your beverage of choice, soda, juice, mixed drink or iced tea, VG paper cold cups are your best option. The double poly coating provides superior water resistance and high-gloss graphics capabilities. The combination of fresh wood fiber paper board and our state-of-the-art German machinery make for strong cup sidewalls and smooth rims for a leak-resistant lid fit. We offered in a variety of sizes to suit multiple drinks and up to 6-color prints.

PERFECT FOR
HOT & COLD
FOODS

HEAVY WEIGHT PAPER FOOD CONTAINERS

VG heavy weight paper food containers are perfect fit for both hot and cold applications.

Made with high quality paperboard and double-sided poly coated for extra strength, make these containers more rigid, durable, and versatile.

Ideal for hot take-out items such as soup or for storing ice cream in the freezer. Great for delis, salad bars, ice cream and frozen yogurt shops, fairs and more.

IDEAL FOR BOTH
HOT & COLD FOODS
 - OATMEAL, SOUP,
 ICE CREAM, & YOGURT.

Available in 8, 12, 16 Tall
 to 32 oz and come with
 a tight-fit vented PP flat lid.
 8, 12 & 16 Tall share one lid
 to reduce storage space
 and inventory cost.

Offered in white and
 up to 6-color print.

SQUARE KRAFT PAPER FOOD BOX

VG square kraft paper food box with recyclable double PE coating paper is suitable for a variety of cold and hot foods applications. The square design and anti-fog PET lid create clean and space-saving look for displaying at supermarkets, food shops, grab and go stores.

Durability

The double PE coating makes the kraft paper food box waterproof and anti-grease.

Displayable

The anti-fog clear lid and square design provide the food visibility, freshness for display and food delivery security.

Multipurpose

Perfect for daily use, outdoor picnic, family party, travel etc.

Multiple sizes

Ranging from 240ml to 1920ml, it is suitable for salad, sandwiches, steak, spaghetti etc.

Recyclable

The square kraft paper food box is 100% recyclable.

CUSTOM PRINTING

GET YOUR MESSAGE DIRECTLY INTO THE HANDS OF YOUR CUSTOMERS.

**EASILY & EFFECTIVELY
PROMOTE YOUR BUSINESS**

Custom printing is the perfect solution to build your brand image and grow market awareness. It allows you to cost effectively advertise your company's brand - products, style and values - and provides a point of distinction for your brand in an otherwise saturated market. It is a portable billboard for your business right in your customers hands. It's an advantage that what we like to call "Brand In Hand".

Customize all your foodservice disposables – paper hot and cold cups, paper food containers, plastic drink cups, plastic round containers and cup sleeves.

WE UNDERSTAND PRINTING

PRINTING APPLICATION

We have world-class printing equipment. For plastic cups and containers, we have four 6-color Van Dam UV offset printing machines. For paper cups and containers, we have 8-color FLEXO machine and four German printing machines that print up to 5-colors.

PRINTING SERVICE

We manage all design and print services in-house. We can recreate or modify your existing artwork or our designers can help you develop an entirely new brand concept. We can even create mock-ups so that you can see what the actual product will look like once artwork is finalized.

5 STEPS

SIMPLE & EASY!

WE'RE HERE TO HELP

WHATEVER YOUR PRINTING NEEDS

01

Choose the cup or container size(s) you need. We offer a wide range of sizes on paper cold cups, paper hot cups – single or double wall, paper food containers, PET drink cups, PET round deli containers and PLA drink cups.

02

Choose up to 6-colors for your plastic cups / containers, 5-colors for your paper cups and containers and up to 4-colors for your customized PLA drink cups and cup sleeves.

03

Send us your artwork as an AI (Adobe Illustrator), EPS (Encapsulated PostScript) or PDF file. If electronic artwork is not available, send a sample of your cup or container and we will recreate the artwork by hand.

04

Once you have perfected your design, we will produce a digital file of the artwork for you to review and approve. We can also create a mock-up, if needed, for a minimal charge.

05

The printing process begins once the digital artwork file and/or mock-up has been approved and purchase order has been received. Custom printed products will be produced and delivered within our stated normal lead times.

Our minimum order quantity for most custom prints is 50,000 pieces per sku.

ARTWORK REQUIREMENTS

FILE FORMAT ▶ .AI

- Shapes and fonts must be outlined.
- Font size must be at least 8 pt bold.
- Artwork elements must be in layers, not merged.
- All images embedded and must be at least 300 dpi or higher.
- Define all colors CMYK or PANTONE® Solid Coated / Uncoated Color Code.
- PANTONE® Solid Coated Colors can be used, but not all colors can be achieved.

Available for all stock sizes.
Please feel free to contact us
for a template to get started.

If your artwork is designed by Photoshop or Corel Draw, please save it as a high resolution PDF, AI, or EPS file.

UNDERSTANDING PRINTING METHODS

CYAN MAGENTA YELLOW BLACK

4-COLOR PROCESS PRINTING

Process printing refers to a process that uses 4 colors - Cyan (C), Magenta (M), Yellow (Y) and Black (B) to reproduce a wide range of colors by mixing the colors together as they are printed. This is known as CMYK process printing or 4-color process printing. A wide range of colors can be created with just 4 color printing plates so the number of reproducible colors is much higher than four. PANTONE® color codes can be provided as a final color reference, but not all PANTONE® colors can be reproduced.

SPOT COLOR PRINTING

Spot color printing uses a color system of solid, pre-mixed colors, also known as PANTONE® colors. Spot colors are more accurate as you have already determined the color by its specific PANTONE® number. It is generally more economical if printing is kept to 3-colors or less.

Due to the use of food-grade inks, not all PANTONE® colors can be achieved. Also, spot colors are nearly impossible to replicate exactly on digital print devices such as color laser printers. Please note that the same color may appear differently on different raw materials.

PRINTING INFORMATION & DISCLAIMERS

COLOR ACCURACY

When a PANTONE® color code is provided, finished products are expected to be within 2 PANTONE® colors, either up or down (refer to PANTONE® Solid color book). Due to food grade inks, not all PANTONE® color codes can be achieved, and any possible replacement is only at the manufacturer's discretion.

INK ODOR

As a result of printing with food grade inks, a degree of ink odor should be expected in all custom printed products. Any possible replacement is only at the manufacturer's discretion.

PRINT GAP

A ¼" gap is left between the leading edge of the design PET/PLA cups so that the design does not overlap.

MINIMUM & LEAD TIMES

- All stated minimums apply for each size and/or design ordered. Minimums are subject to change at any time. Due to the nature of custom printed products, there may be a +/- 10% over/under run (variance between amount ordered and amount produced).
- Lead times are estimated and are not guaranteed.

PLATE CHARGES

Plate charges will not be charged for reprint orders provided the existing plates are in good condition. If left unused, printing plates have a maximum life of 18 months. Customer will be notified if new plates will be necessary for their re-print orders and subsequently billed for the new plates.
